CRANIAL ACCESS

APPROACHES TO THE SKULL BASE
VIENNA DISSECTION COURSE 2024

Course Directors: Johannes Herta & Matthias Millesi
Senior Directors: Christian Matula & Karl Rössler

Delve into an intensive, deep dive exploration of skull base anatomy, surgical approaches, and related pathologies during this comprehensive three-day program:

- In-depth 3D Anatomy Classes
- Hands-on Cadaver Micro-Dissection in a well equipped Wet Lab
- Interactive Case Discussions
- Exoscope-Enhanced Surgical Simulations with Exceptional Realism

This Year's Special Focus: Advanced Hearing Augmentation Techniques using Cochlear and Auditory Brainstem Implants!
